To: Whom it may concern

Subject: Skip-Tracers  
National Certification Program

Our company recognizes Alex Price as the "World's Greatest Skip-Tracer". I first became acquainted with Alex in one of his educational seminars during a Professional Bail Agents of the United States meeting years ago. His Cyber-Tracking skills and knowledge are the best that I have ever seen and his classes are great.

He has taken his years of experience and expertise in skip tracing (cyber tracking) and developed a wonderful National Certification Program. This course takes a participant from tracking 101 to world class cyber hound dog. In addition to the certification the course work doubles as a great resource book.

I would recommend that anyone involved in a profession that can hinge on finding a person, take this course. The skills and practical knowledge taught with this program will serve you well.

Sincerely yours,

Marc Oudin  
Chairman
